

*The Records of the
Laura Ingalls Wilder Family
A Genealogy Presentation
at the St. Clair Shores Public Library*

*Thursday, December 8
6:30pm
Free and open to the public*

Most genealogy lectures focus on a particular type of record or research methodology such as family records, church or civil records, census research, land records, or military files. This presentation by James Jackson follows one (well-known) pioneer family through their travels "Out West", and examines the many records that were generated and left behind - just like your family. Learn how to broaden your search for genealogical records through the story of pioneer icon Laura Ingalls Wilder and her family.
